

## Tested Tow Boat Driver

### **38th Annual Wisconsin State Water Ski Show Tournament & the Heart of Wisconsin Open Water Ski Show Tournament July 15-18, 2004 - Wisconsin Rapids**

The NSSA has instituted a Tested Driver Program to provide a means of ensuring our ongoing emphasis on Safety in the sport of Show Skiing. In 2001 at least one driver from each club or team must have successfully passed this test and be on the water driving a boat during a sanctioned tournament. By 2005 every tow boat driver that drives at a USAWS sanctioned event (practice/show/tournament) must have passed this test. The Tested Drivers for your club/team must be listed below, and this form turned in with the tournament paper work.

Rule: 9.01: Boat Driver – In 2001 all tournament teams must have one tested driver that is driving within their respective rating, in 2002 all NSSA teams must have at least one tested driver that is driving within their respective rating and in 2005 all towboat drivers on all NSSA teams must be tested and driving the boats within their respective rating(s).

**All competing clubs must furnish the Tournament Host with a photocopy of one tested driver registration card.**
